

Preparing for the Unexpected: Managing the 'Startle Response' in Emergency and Abnormal Events

This safety meeting will look at several different emergency scenarios and why we react in strange and potentially dangerous ways. It could be a great way to look into your own decision making processes and determine if any changes need to be made in the way we approach emergencies or abnormal events.

Directions: The meeting will be held in the Caplinger Airway Science Building on the campus of Henderson State University in the Lecture Hall located on the 1st Floor.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
